

Thanks

Heel-O-Matic!!

February 4, 2010

To The Heel-O-Matic Systems Challenge:

I sincerely appreciate the opportunity to compete in your challenge at the National Little Britches Finals Rodeo this past July 2009. I was fortunate to place second and receive the \$500.00 scholarship.

I feel I must share my story with you. After spending the week practicing heeling on your Heel-O-Matic, (I am the header in the team roping arena) my partner and I placed 2nd during the challenge. After returning home the next weekend, I was trying out my new saddle on my doggin' horse when my team roping horse got excited and severed his tendon. We rushed him to our Vet, Sam Hendrix who has done an amazing job on this serious injury.

Devastated without my great heading horse, I began trying to train my own horses and borrowing horses from different people. Time was going by fast and it was time for the first little britches rodeo in Utah. I borrowed a horse from my friend Kolbey Hughes. That night they had a jackpot roping and Kolbey and I decided to switch places and for the first time, I was the healer. First time out I caught both heals, second time out I caught both heals, third time I legged. I ended the night in second place as a healer.

I am confident that the experience I had practicing on the Heel-O-Matic at the National Little Britches Finals Rodeo was all I needed to become a confident healer and a better understanding as the header.

Thanks again for that experience,

Parker J. Cummings
2009 World Champion
Little Britches Finals Steer Wrestler
